

CAHIER : From good practices to networking textual DH in France

Wide disciplinary scope

Projects rather than research units

- Textual corpora / Authors corpora
 - Either in textual or image form
- Text and / or Image databases
- Tools for digitization, edition and research on textual corpora
- All corpora must be accessible
 - Open Data
 - Or negotiated with heirs
- All tools and corpora must be
 - Sharable
 - Reusable
 - Interoperable

Passing on know-how

Training the consortium community :

- internally
- with specialists
- jointly with other consortia to Textual DH skills

Courses

Lead or co-lead by
CAHIER (TEI, XSL)

Workshop

Yearly
Thematic

Expertise

On a national and
international level

Prospection

collective reflexive
approach to this
new community

Sharing

Experience and
supporting
emerging projects

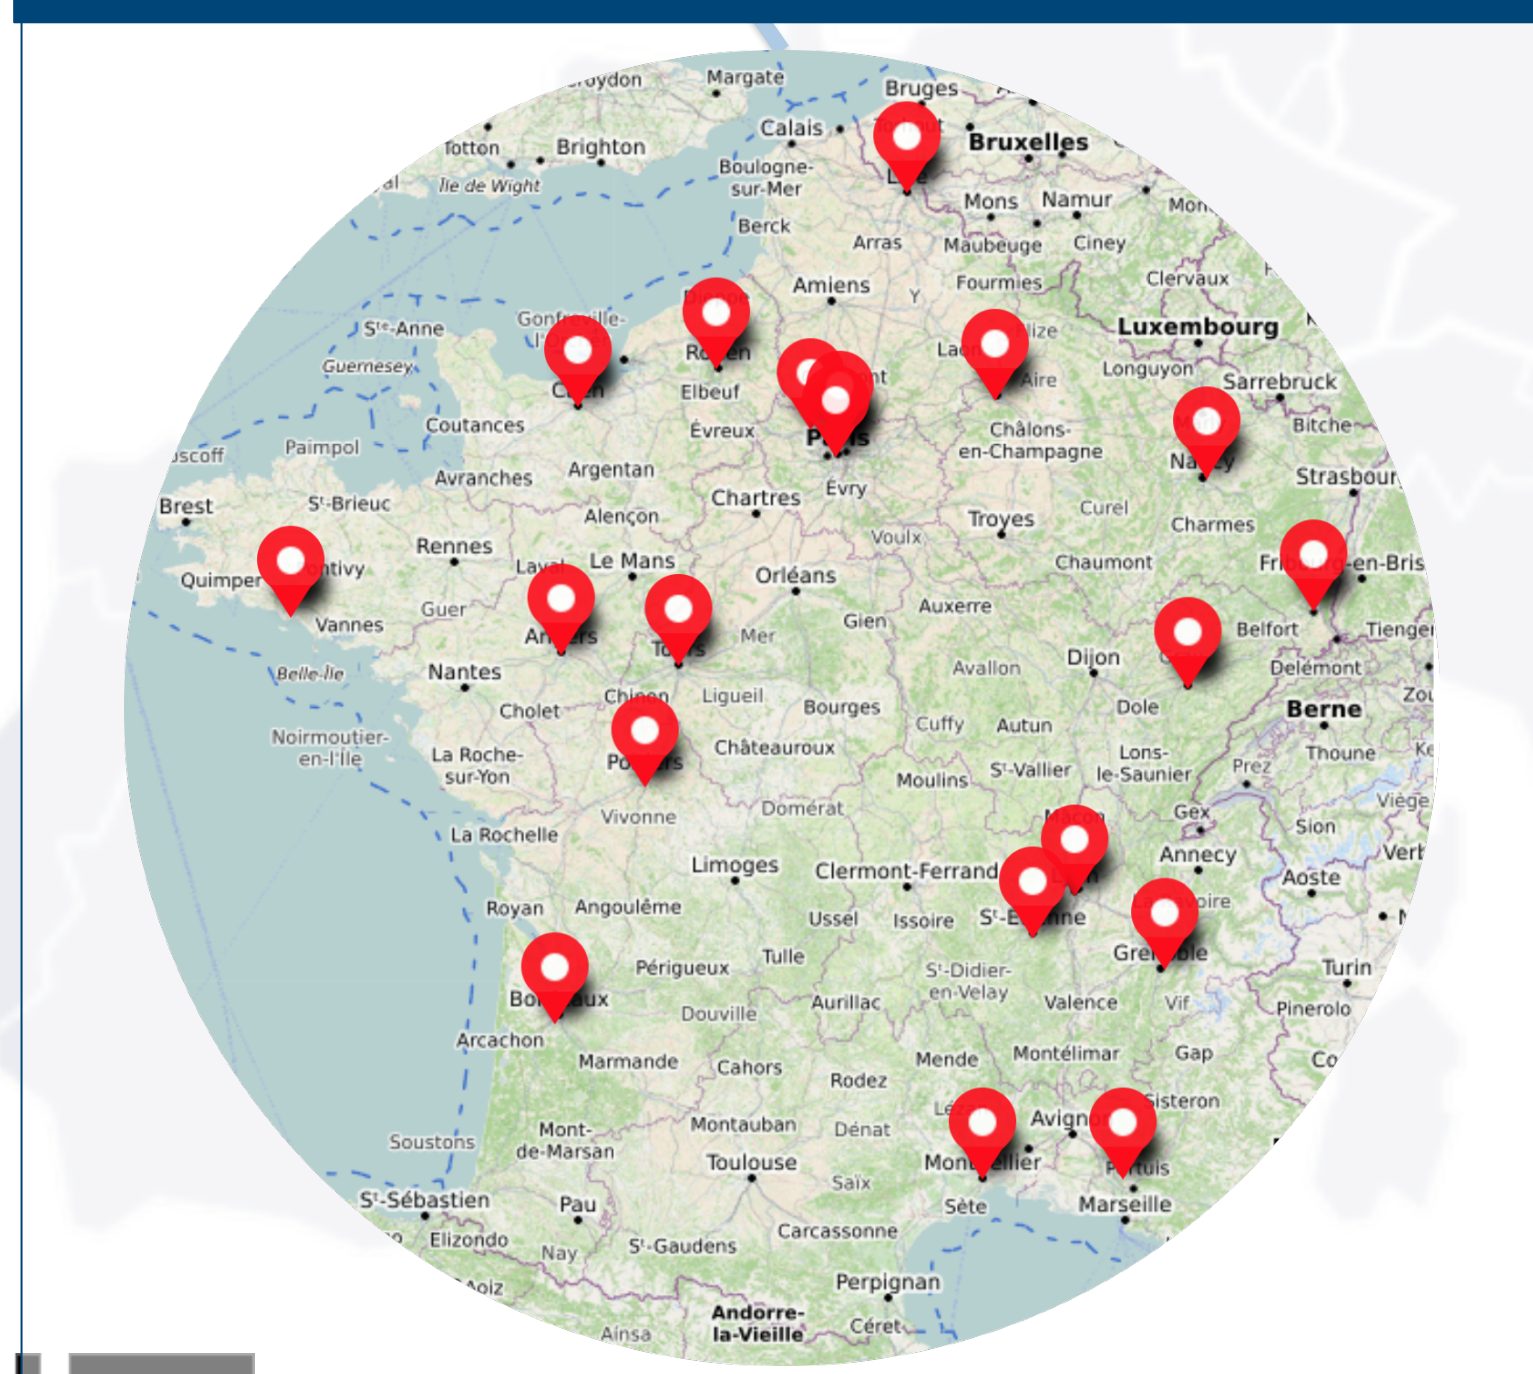

Epistemology

Of tools
And methods

Guides

Good practices
Starter Kits

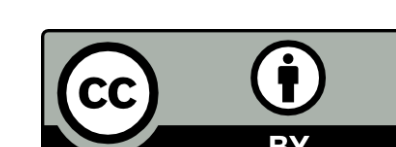

A research network

Thematic Workgroups
