

# DDRS – Data Deposit Recommendation Service

## How can I find humanities research data repositories?

<https://ddrs-dev.dariah.eu/>

### Data Deposit Recommendation Service for humanities researchers

Find a suitable digital repository to deposit your research data or to include in your data management plan by answering the questions below

In which country are you based as a researcher?

Select one

What is your disciplinary field?

Select one

Clear selection

HaS has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 675570

## What is the DDRS?

- DDRS stands for **Data Deposit Recommendation Service**.
- It identifies **suitable research data repositories** depending on case-specific requirements using re3data.
- It may forward a **deposit request** along with a structured description of the research data to the appropriate point of contact.
- It aims to **increase visibility of research data repositories** and to improve collaboration and interoperability between such services.

## The project Humanities at Scale

- DARIAH supports the humanities and cultural sciences working with digital resources and methods in research and teaching.
- Humanities at Scale – as DARIAH-EU project – aimed at
  - Improving DARIAH in fostering new and sustaining existing knowledge
  - Networking – brings researchers together
  - Education – expands knowledge
- Improving the DARIAH Infrastructure by promoting better access to DARIAH contributions, supporting research activities and developing core and research services.

### Details of the repository

|                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## Project Results

- Project reports are available in Open Access under:
  - <https://halshs.archives-ouvertes.fr/>
  - Applying the search keyword “Humanities at Scale”
- A journal article on the DDRS is being prepared, to be published in 2018.
- Complete documentation available on GitHub:
  - <https://dariah-eric.github.io/ddrs/>
