

> DESIR CODE SPRINT / <

WHAT?

- Extraction of bibliographical data and citations from PDF applying GROBID
- Import and export of bibliographical data from BibSonomy and ingest in managed collections
- Visualisation of processed data with added dimensions for journals, topics, or reference dependency graphs
- Securing Online Services in the DARIAH AAI using SAML/Shibboleth

WHY?

We aim to improve the cooperation between various DARIAH-related partners and institutions and to develop service concepts around bibliographical data.

WHO?

We cordially invite all DH developers to join us for some days of hacking.

WHEN & WHERE?

The code sprint will take place from **July 31st to August 2nd** in the premises of the **Humboldt University Berlin** in a relaxed and productive environment.
